

DENTACOIN

The Blockchain Solution for Better Oral Health

*Sick Care is the crisis of the 21st century.
We are shifting the paradigm towards a Health system that Cares.*

What Is Dentacoin?

Dentacoin is the first and only blockchain solution for the global dental industry. It improves oral health globally using:

- 1) a preventive, smart contract-based dental assurance model
- 2) a set of dental apps, incentivising beneficial user behaviour
- 3) a functioning cryptocurrency, used for rewards and payments

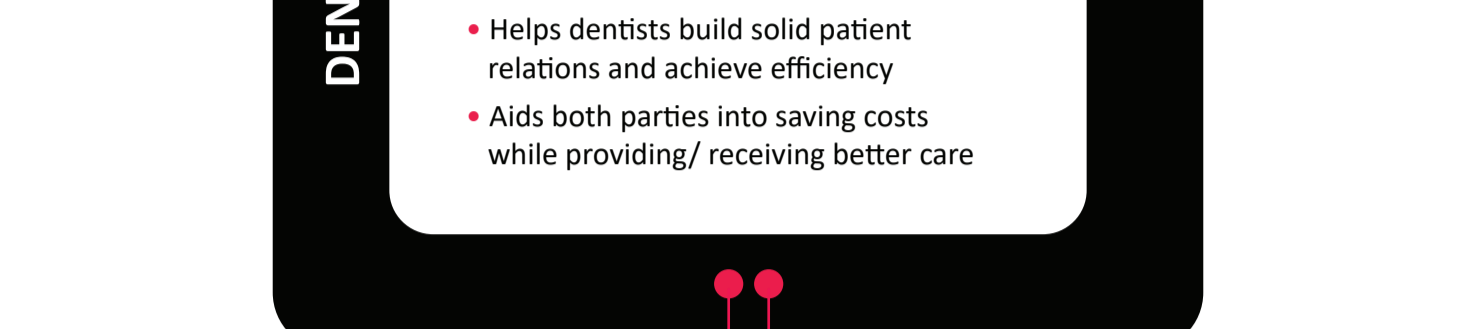

Myth: It is for dentists only.

Fact: It is for everyone.

Dentacoin's target audience extends far beyond the narrow blockchain community, creating a solid bridge towards everyday life and existing business environments.

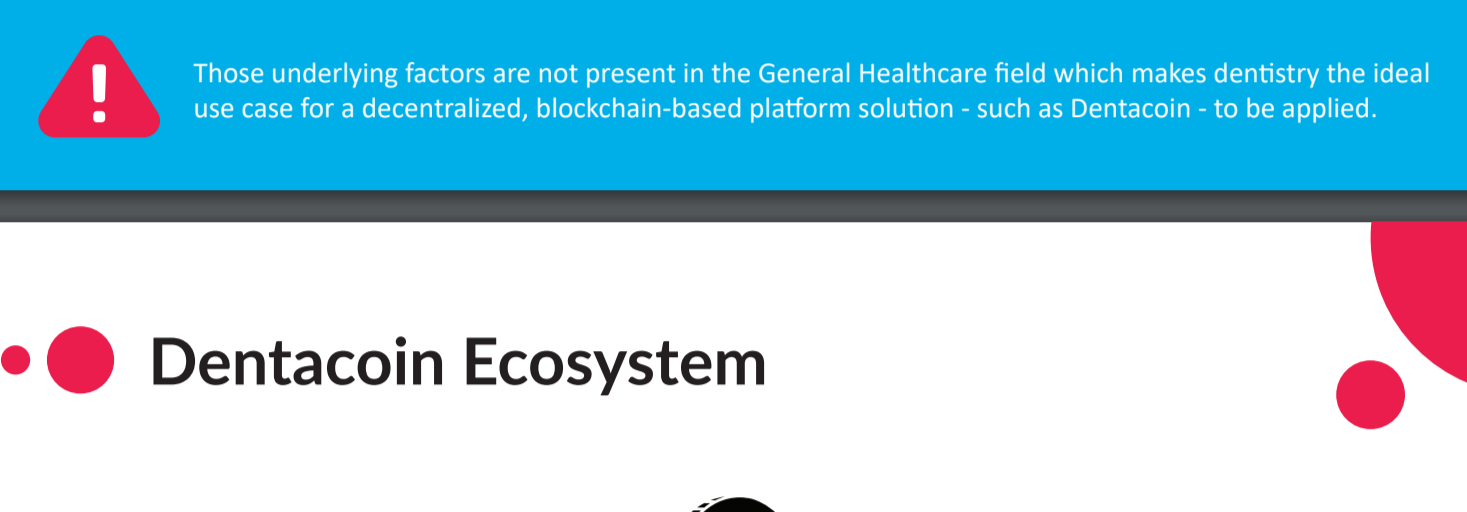

Company Introduction

Founded in 2017, the Netherlands-based Dentacoin Foundation is the autonomous organization behind the Dentacoin blockchain-based solutions and the same-named cryptocurrency. The legal structure of the Foundation ensures the proper execution of the mission and protects users' interest as it functions solely.

Why Dentistry?

Problems

Solution

Dentacoin improves this deplorable state of affairs by developing an ecosystem that:

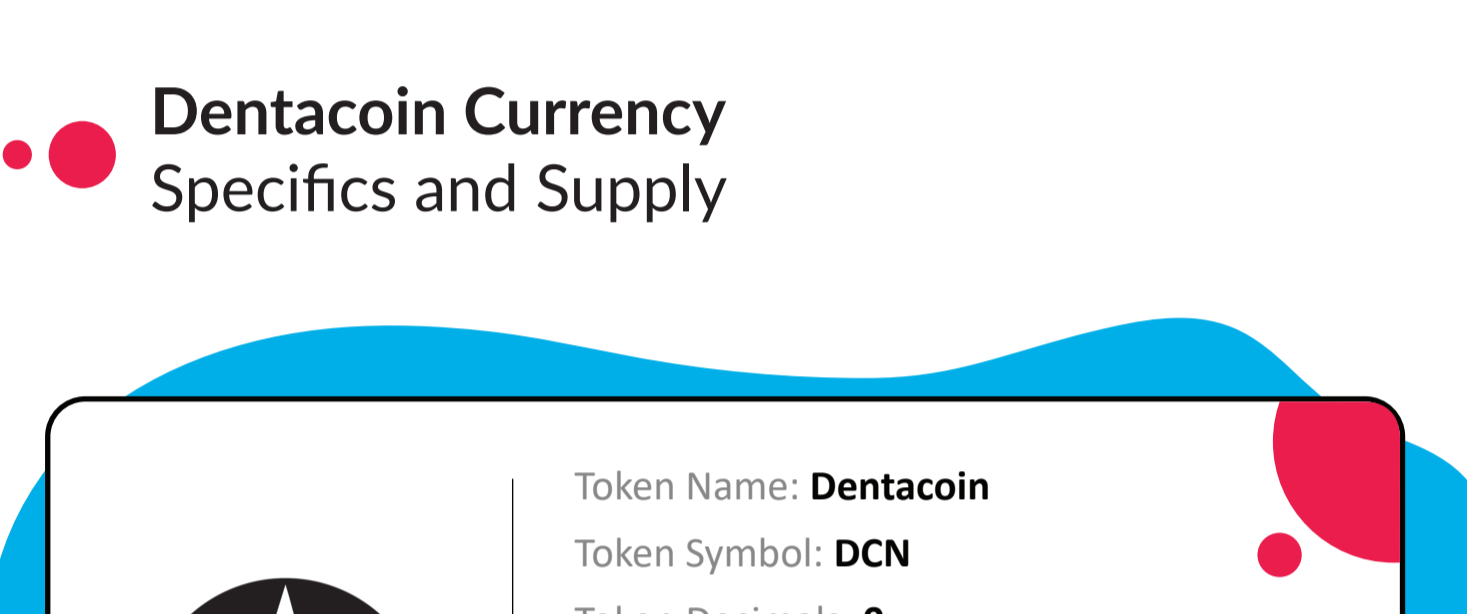

- Motivates patients to take an active role in achieving proper oral health
- Helps dentists build solid patient relations and achieve efficiency
- Aids both parties into saving costs while providing/receiving better care

Prerequisites

Those underlying factors are not present in the General Healthcare field which makes dentistry the ideal use case for a decentralized, blockchain-based platform solution - such as Dentacoin - to be applied.

Dentacoin Ecosystem

PATIENTS: Earn rewards for reviews, surveys, better oral hygiene and reduce your dental costs!

DENTISTS: Boost patient loyalty and prevention with free apps and modern payment method!

Dentacoin Apps: Promoting better oral health and rewarding users for submitting feedback, taking surveys, maintaining oral hygiene.

Dentacoin Assurance: The first smart contract-based dental assurance plan, focused on prevention and paid exclusively in DCN currency.

Dentacoin Currency Specifics and Supply

Token Name: Dentacoin
Token Symbol: DCN
Token Decimals: 0
Token Type: ERC20
Token Code: GitHub
Token Class: Utility

Dentacoin (DCN) is NOT a security – a fact, confirmed in an official statement by the legally responsible assessing party, the Dutch Authority for the Financial Markets.

Initial Total Supply: 8,000,000,000,000 DCN

Current Total & Circulating Supply: [CoinMarketCap](#)

- **Partly Locked:** Approx. 70% of the total supply is locked in TimeLock contracts and is being released in minor parts in the beginning of each year. [See all TimeLock contract addresses.](#)
- **Coin Burn Sessions:** The excessive amount of DCN supply is being gradually burned to destroy the coins that are not demanded. [See all coin burn sessions so far.](#)

Dentacoin Currency Tangible Use Cases

The substantial value of the DCN token is linked to its adoption. The more users operate with Dentacoin apps and currency, the higher its value is prone to grow ("network effect").

285K+

Transactions in DCN Currency

148+

Partner Locations Accepting DCN Currency

OTHERS

- Exchanged to other currencies
- Stored for future value multiplication
- Held as a future oral health fund

INCENTIVES

Earned through Dentacoin apps for:

- Taking oral health surveys and polls on DentaVox
- Submitting feedback on Dentacoin Trusted Reviews
- Maintaining proper oral hygiene with dentacoin apps

Earned through work/bounties
Integrated in loyalty programs

PAYMENTS

Used by everyone to pay for:

- Dental treatments
- Oral care products
- Dentacoin Assurance fees

Used by dentists to pay for:

- Dental materials
- Dental equipment
- Other related services

Dentacoin Apps Rewarding Better Health

Dentacoin apps are designed to help dentists build a loyal patient base and get access to valuable market research data, while simultaneously allowing users to earn Dentacoin (DCN) for their beneficial behaviour.

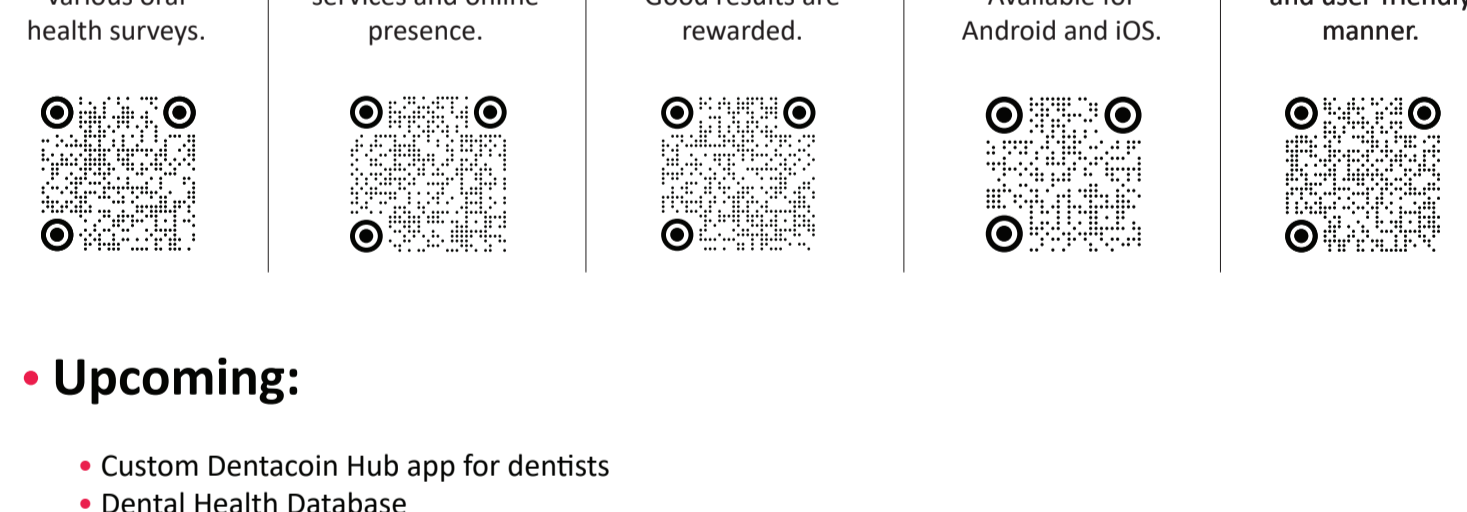

240K+

Active Dentacoin Users and Community

2200+

Dental Offices Using Dentacoin Apps

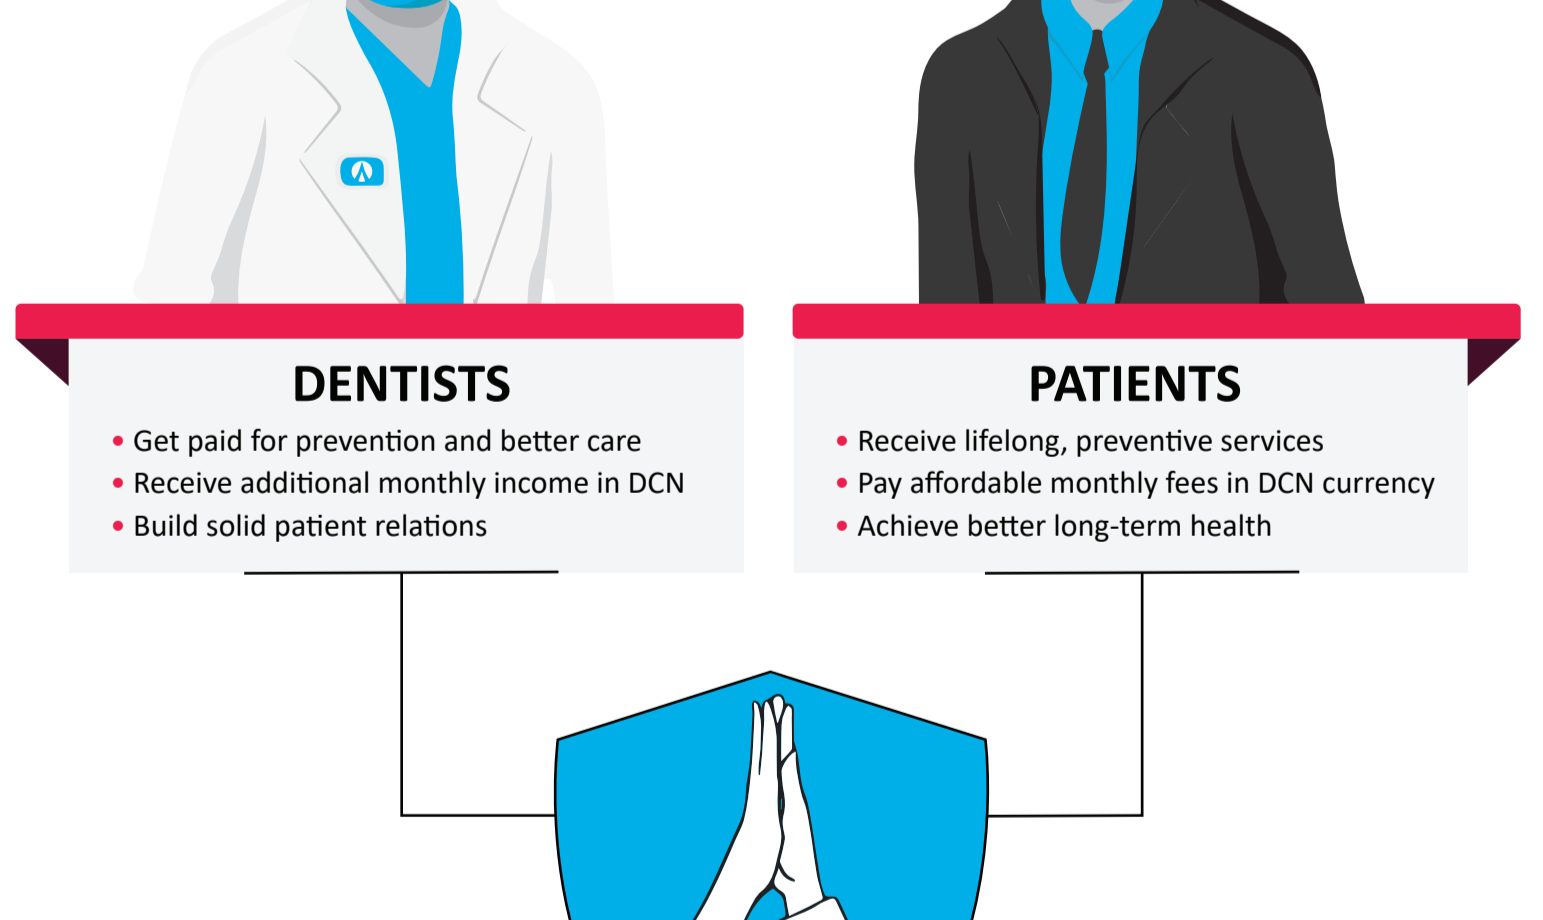

Fully Functioning:

- Custom Dentacoin Hub app for dentists
- Dental Health Database
- Integrated Practice Management Software

Dentacoin Assurance Care more. Cure less.

Dentacoin Assurance is the first dental assurance plan, based entirely on direct smart contracts between patients and dentists. It focuses on prevention rather than acute treatments and is exclusively paid in DCN currency.

Advantages over Existing Solutions:

- New, wholesome application of **smart contracts**
- **No third parties** to regulate the relations and take profits
- Full **freedom of both parties** to decide on conditions
- More affordable **monthly fees, paid in DCN**
- **Preventive care** and solid patient-dentist relationships
